

With the Govee 48ft/15 Bulbs RGBW WiFi+Bluetooth you can colorize your outdoor BBQs, pool parties, or weddings with these water-resistant, color-changing bulb string lights packed with our dynamic RGBIC technology.

- Smart App and Voice Control with Google Assistant: Independently control the color of each LED string light using Govee Home App for fantastic multicolor displays. Voice control via Google Assistant for power on/off, brightness, and mode changes.
- Million of Colors: With over 16 million vivid color options and 40 Vibrant Scene Modes, your outdoor scenery will transform before your eyes. Have a favorite photo? Upload it, and the Govee Home will recognize and apply them to your WiFi light bulbs.
- Music Sync Mode: Dance the night away as the string lights react in real-time to your songs via the integrated mic. With Outdoor LED String Lights, don't only hear your music, but live it with beautiful dynamic lighting.
- Timer and Schedule: Incorporating your Alexa patio lights into your daily routine is now easier than ever. With modes like Wake up and Sleeping, you can set your smart wifi bulb to brighten until you wake up or gradually darken until you drift off to sleep.
- IP65 Waterproof and Shatterproof: Enjoy year-round patio lights no matter the weather with IP65 waterproofing. The specially-designed plastic bulb material is also shatterproof to survive knocks and falls. Tips: The power adapter is not waterproof
